

SECURITY & GRC FOR AI ERA

At Cyber GRC Hive Inc., we deliver top-tier Cybersecurity and GRC services to protect businesses in the U.S. and beyond. Our expertise spans Governance, Risk, and Compliance, alongside services like advanced pen testing, Zero Trust IAM Services, Real Time SOC solutions, HIPAA, NIST, ISO27001, PCI DSS, and many more.

Security Operation Center (SOC)

Cyber GRC Hive's SOC is strategically deployed in secure, state-of-the-art U.S.-based data centers located in Oregon and Staten Island, NY. We also operate an on-premises secured SOC center and a branch office located in Dhaka, Bangladesh

This co-location strategy ensures enhanced Professional security, regulatory compliance, and reduced latency for real-time threat detection and response. By maintaining sensitive data within these geographically diverse yet highly secure data centers, CGH provides organizations with exceptional reliability, data sovereignty, and protection against evolving cyber threats.

- ➔ **Logs Management & Monitoring**
- ➔ **Firewall Solutions**
- ➔ **IDS-IPS Solutions & Services**
- ➔ **XDR SIEM Services**

Pen Test / Red Team Setup

CGH's penetration testing and red team services help business organizations identify vulnerabilities by simulating real-world attacks, ensuring strong defenses.

- ➔ Identify and exploit vulnerabilities such as XSS, SQLi, CSRF, authentication flaws, and business logic issues.
- ➔ Evaluate REST, SOAP, and GraphQL APIs for broken access controls, rate limiting, data leakage, and injection flaws.
- ➔ Uncover internal and external threats including misconfigurations, open ports, weak credentials, and unpatched services.

- ➔ Detect SQL injection vectors, insecure database configurations, privilege escalations, and sensitive data exposure.
- ➔ Reverse engineering, protocol analysis, insecure storage, and DLL injection testing for desktop applications.
- ➔ Analyze mobile apps for insecure data storage, improper platform usage, code obfuscation flaws, and API abuse.

AI Solutions & Governance

- ➔ AI Agents: Your New Digital Workforce
- ➔ Taming Data Chaos: Big Data Engineering
- ➔ AI That Feels Like a Teammate
- ➔ AI Governance & Security
- ➔ Generative AI: Your Creativity Copilot
- ➔ Data's Power Tool: Custom LLMs & RAG
- ➔ Chatbots That Don't Make People Roll Their Eyes
- ➔ Beyond Dashboards: Analytics That Actually Do Things

Governance Risk & Compliance (GRC)

At Cyber GRC Hive, we deliver end-to-end GRC solutions powered by deep expertise and industry best practices. Our services ensure your organization stays secure, audit-ready, and aligned with global standards.

- ➔ NIST 800 Assessment and implementation
- ➔ ISO 27001 Assessments and Certification
- ➔ GDPR Compliance Support
- ➔ Enterprise Technology Audits
- ➔ HITRUST Readiness & Advisory
- ➔ COBIT 5 Governance Framework Implementation
- ➔ PCI DSS Readiness, Self-Assessment & Certification

ISMS Technology Audit

We offer comprehensive Enterprise Technology Audit solutions that extend beyond conventional assessments to provide a deep dive into your organization's IT environment.

Security And Posture Management

Our Enterprise Security and Posture Management solutions are carefully designed to enhance your organization's security framework from the ground up.

IAM (Zero Trust)

Our IAM integration offerings ensure seamless connectivity and management of diverse identity ecosystems, tailored to meet the unique requirements of your organization:

EPIC EMP Provisioning: Simplify and secure employee lifecycle management in EPIC systems with our automated provisioning and de-provisioning solutions, ensuring:

- ⊕ Accurate role-based access assignments
- ⊕ Streamlined workflows for onboarding & offboarding
- ⊕ Compliance with regulatory and organizational policies

EPIC SER Provider Management: Efficiently manage provider identities in EPIC systems with:

- ⊕ Automated provisioning and updates for provider data
- ⊕ Role-based access control according the requirements
- ⊕ Audit-ready logging for enhanced compliance

Cerner EMP Provisioning: Optimize identity provisioning in Cerner environments with:

- ⊕ Scalable solutions onboarding and offboarding
- ⊕ Secure access to sensitive data
- ⊕ Automated compliance reporting

Azure AD Admin Management Connector: Enhance administrative efficiency and security in Azure Active Directory with our specialized connector, offering:

- ⊕ Role-based access control for admins
- ⊕ Advanced monitoring and logging capabilities

Factory Model App Onboarding: Accelerate the onboarding of applications into your IAM framework with our Factory Model approach, ensuring:

- ⊕ Standardized and repeatable processes
- ⊕ Rapid integration, Comprehensive testing and validation

IDS-IPS Solutions & Services

Our Intrusion Detection Systems (IDS) and Intrusion Prevention Systems (IPS) services are at the forefront of safeguarding your digital assets. By integrating cutting-edge detection technology with real-time threat intelligence, we offer solutions that not only identify but also actively block malicious activities, ensuring that your network remains secure against both known and emerging threats.

Security as a Service (SECaaS)

Built to establish a strong security foundation.

- ➔ 24/7 Security Monitoring & Alerting: Continuous, real-time surveillance of your IT environment to detect and respond to threats, anytime, anywhere.
- ➔ SIEM Management: Centralized log collection, correlation, and reporting - spot patterns, surface anomalies, and streamline investigations.
- ➔ Managed Firewall & EDR: Next-generation firewalls combined with endpoint detection and response tools to block intrusions before they impact your operations.
- ➔ Patch & Vulnerability Management: Regular vulnerability scans and patch deployment keep your systems hardened and resilient against known exploits.

Why Choose Us?

- ➔ 24/7 Global SOC staffed by certified analysts
- ➔ Tailored Solutions aligned with your industry and risk profile
- ➔ Proactive-First Approach: prevention, detection, and response
- ➔ Compliance-Ready: HIPAA, PCI-DSS, GDPR, ISO 27001, and more

Why Partner with Cyber GRC Hive?

- ➔ Expertise: 100+ certified security professionals (U.S. person and global experts)
- ➔ Scalability: Multi-tenant platforms supporting SMBs to large enterprises
- ➔ Transparency: Custom dashboards and detailed reporting
- ➔ Results: Faster detection times, reduced dwell times, and lower breach costs
